Dear Sir,

Good Afternoon.

Happy Makar Sankranti.

This has reference to the telephonic conversation on Saturday regarding the business development and new projects.

Our top management is looking to diversify the business and wants to venture into **heavy fabrication and engineering**.

As a part of our CSR initiative, we have already designed and manufactured Oxygen Plants (during COVID), waste incinerators, to name a few.

We are further looking to venture in fields like renewable energy, farm equipment, construction machinery to name a few and create a business model for the same.

Our team of 3 people have been entrusted with the responsibility for Business development in this field. I am providing herewith a brief overview of our company.

Established in 1979, Kalyani Techno-forge Ltd, part of a Kalyani Group, has made tremendous progress to be known as one of the most dependable

and consistent manufacturers of forgings, offering productive machining operations catering to the requirements of domestic as well as international clients.

We possess state of the art manufacturing plants across the country specializing in the manufacturing of a plethora of products like forging, warm & cold forging,

aluminium forging, high speed HATEBUR forging, precision machining, gearboxes, gear cutting, etc.

From being a seasoned veteran in the field of marketing, academia to providing mentorship support to many startups, you have been a torchbearer to many. Hence, we needed your help in developing this vertical.

Initially, we need your help in introducing us to prospective customer who requires help in critical fabrication items.

Dear Sir,

It was great to meet you yesterday at the Networking Arena in IIT Bombay (E-Summit 2024), especially the engaging conversation we had towards implementing the pilot project titled: **"Sustainable Urban-Rural (SUR) Health Program"** has motivated me even further to move ahead in the journey.

I am looking forward to take important steps in getting all the different stakeholders onboard and hoping to receive the Startup India Seed Fund as an initiator in the process.

As shared with you on WhatsApp, I am also attaching herewith a brief description of the pilot project for ease of reference.

Best Regards,

Ar. Srishti Raizada

Dear Sir,

Greetings of the day from team TESECURITY!

Me and my team are grateful for connecting to you at Esummit'24 and we would love the opportunity to work with you to develop a great product and serve this digital world better.

I would like to give you a brief introduction to TeSECURITY. TeSECURITY is a data privacy and cyber security startup that aims to deliver the power of user online browsing data back to the hands of the user with the help of a chrome web extension and a smartphone application. We are also aiming to provide top notch web3.0 based cybersecurity to our user so that user can keep their devices and data secure. We will also be giving out rewards to users opting to share their online data to us in exchange of personalised advertisements. I have also attached our pitch deck for your reference and better understanding of our startup.

We hope that your addition to the team will bring a great network and a very useful experience of all these years that you bring to the table.

Hoping to hear from you soon and work with you.

With Regards,
ARJ SHAH
CMO TESECURITY

Why is this message in spam? It is similar to messages that were identified as spam in the past.

Why are we pursuing it?

- High launch cost
- Air pollution
- Lot of noise
- Energy inefficient

Rockets require us to carry fuel to propel the fuel for the next stages + payload. This leads to 80% of the rockets total mass being fuel and only 10% for payload. (10% for avionics, telemetry, etc.)

We wish to overcome this by using a modified (EM) Electromagnetic rail gun to launch payloads to space. This would be like kicking a football. No need for carrying fuel to propel fuel.

Videos of EM rail gun
We have a provisional patent no 202321950626 on the modification.

Advantages of our system

- Ultra-low cost
- No air pollution
- Single launch system *

*Regardless of payload weight
We would like to have your support with respect to help building a prototype and maybe funding and scaling our business.

The link for the pitchdeck is as follows
https://app.slackbean.com/obj/9df14h3aa/VSL_Be_SBO

Thanking You,
Yours Sincerely,
Dr Tajar Shetty

Dear Sir,

I hope this email finds you well.

As we meet & discussed about our venture in Modern College Ganeshkhind Pune.

I am writing to introduce you to SHREEL-SURYA RESEARCH PRIVATE LIMITED, an agri-biotech startup focused on plant nutrition and pest management. Our mission is to revolutionize agriculture through precision farming and the utilization of microbial inputs, enabling plants to reach their maximum potential.

****Tagline:****

"Empowering Agriculture with Precision Microbial Solutions"

****About Us:****

Led by Dr. Supriya Kusale (Ph.D. Microbiology) and Pratik Kusale, our startup has been recognized by Startup India (DIPP - 111090) and operates under CIN - U24290PN2022PTC213860. Our commitment to innovative solutions is evident in our patent, "Formulation of optimized medium for low-cost liquid biofertilizer of phosphate processing bacteria," which has been published on the IPR website.

Date: Wed, 17 Jul, 2024, 12:24 pm
Subject: Offer Letter for the Campus Ambassador Program | E-Cell IIT Bombay
To: <sharonnaidu986@gmail.com>

Dear Sharon Naidu,

Congratulations once again!

We are thrilled to welcome you as a Campus Ambassador at the Entrepreneurship Cell, IIT Bombay. This internship will be conducted in a work-from-home mode, and you will report online to the E-Cell IIT Bombay office in Mumbai.

We are excited to see your enthusiasm and dedication toward promoting entrepreneurship on your campus. As a Campus Ambassador, you will play a crucial role in fostering an entrepreneurial mindset among students and help bridge the gap between academia and the startup ecosystem.

Incentives:

- Access to exclusive online courses
- Free passes to E-Cell events
- Exciting goodies based on your performance

Please find attached your official offer letter.

We will provide you with further instructions about the internship and Orientation in the next few days. If you have any questions or require any additional information, please do not hesitate to reach out to us at ca@ecell.in.

We are excited to have you on board and look forward to seeing the great impact you'll make!

Warm Regards,

Team E-Cell IIT Bombay
